

EAP245

TP-Link

Omnidirectional Wi-Fi AP 5

Frequencies 2.4 & 5GHz

Supports 802.11ac/n/g/b/a

Transmission speed 1300Mbps EN

5GHz

3 4dB omnidirectional antennas

TP-LINK

Wireless Gigabit access point

Dual Band AC1750

Wifi 802.11ac/n/g/b/a high power in 2,4 GHz and 5GHz

Allows connections up to 450 Mbps in 2.4GHz and 1300 Mbps in 5GHz

MultiSSID

Passive PoE

Compatible with EAP devices

Temperature range from -30 to 65 °C

Specifications

Brand	TP-LINK
Wireless Standard	802.11ac/n/g/b/a
Transmission speed	Up to 1300Mbps in 5GHz or 450Mbps in 2.4GHz
Frequencies	2.4GHz & 5GHz
Maximum power transmission	27 dBm
Maximum sensitivity	96dBm@8% PER
Integrated antenna	3, 4dBi Omnidirectional internal antenna(s) in 2.4GHz & 3 4dBi Omnidirectional internal antenna(s) in 5GHz
Operating modes	Access point
Security	WEP/WPA2/SSID hidden/filtered by MAC, Wireless isolation between clients
Management	Configuration via web interface
Power	Passive PoE 24VDC, 1.5A
Operating temperature	0°C ~ + 40 ° C
Weight	430 gr
